Which best describes the course for you?

Requirement for my major	0% 0
Elective for major	0% 0
Elective for my minor	0% 0
Divisional Requirement	91% 20
Elective	9% 2

Number of Participants: 22

Course: PHI-111 A

Instructor: Delay, Steven

Total Enrollment: 29

Percent Response: 76%

For me, the level of difficulty of the course was:

Much more than most courses	0% 0
More than most courses	14% 3
About the same as most courses	32% 7
Less than most courses	55% 12
Much less than most courses	0% 0

Overall, how much do you feel you've learned in this course?

More than most courses	27% 6
About the same as most courses	5% 1
Less than most courses	45% 10
Much less than most courses	0% 0

## Spring 2019 Student Evaluations

Delay, Steven

#	1. What is your general impression of the course?	2. Do you have suggestions as to how this course could be improved, or do you have any additional comments you would like to share?
1	I think this is a very good course in many respects. I like how it is self propagated because if you do the work, you will know what is going on and you will benefit, and if you don't, you will be confused and probably not do well on the tests and that is your loss. I think this is the way much more college courses should be. The structure of class discussions of readings, 2-3 major tests, and an extra credit essay is the perfect amount of engagement and work.	No, this is a very good course and I learned a lot. Professor Delay is an amazing teacher who is very enthusiastic about the subject matter and very respectful of his students. I would highly recommend this course to any of my friends.
2		
3	professor Delay was very enthusiastic about the subject and taught us well.	
4		
5	Interesting topics. I enjoy the class conversations. The assessments are appropriate to the concepts we've learned, and reasonably ask us to apply them.	It seems as though the amount of content is currently being felt-out and could be tweaked so that it is all clear from the start of the semester.
6	I was so impressed with this class. This class made me think in ways that I have never thought I could. It opened my eyes to a bigger world that I knew. Some of my confusions about life were answered in this class. I will most definitely take another philosophy class because of this particular class. From my experience, it is the way that the material is taught to you that makes the class more enjoyable. If a class is taught in away that a person hates, then the subject at hand is miserable . However, Dr. DeLay spent time and went out of his hand to make the class fun and enlightening. I learned so much from his course that I could have ever from my actual major. It is because Dr. DeLay took the time to interest his student in the subject, and I could tell that this is something that he really cares about. Not to make his student struggle, but to let them have a general understanding of the basics of philosophy. This was a great class, and I hope that the other philosophy classes can even compare to the this one.	n/a
7	Great divisional. I learned a lot and Professor DeLay is a great addition to the Wake Forest community.	I wish there were more opportunities to earn points in this class. We are graded on 3 tests. That's all.
8	It was a great introduction level class	n/a
9		
10		
11	The material can become tricky, but the professor did a good job of relating it to simpler things that we would be able to understand.	

## Spring 2019 Student Evaluations

12	Interesting course that introduced me to history of philosophy	I would like to have spent more time on the arguments themselves and how they can be broken down, rather than their history
13	Dr. DeLay did in an excellent job conveying the ideas of Descartes, Plato, and Kierkegaard in a way that one can try to understand these very difficult texts. At points, I was confused but in the end, everything tied back. I feel Dr.DeLay has able to make the most personal impression on how to live your life effectively than any other class at Wake. He not only able to convey the ideas of these texts, but also put them in context with our lives and how to live a better more effective just life. I learned a lot from this course and I am very happy that I took it.	I'd say the only thing Dr. DeLay should work on his organizations and making things more streamlined, but in a way, that's not the way philosophy should be taught. It isn't a math class so though the disorganization could be annoying, but he would always be inclined to answer questions.
14	Very interesting and made me think in ways I hadn't before. He is knowledgeable and made tried to make the subject matter as easy to understand as possible and did a good job since the material is extremely complex.	No
15	At first I was skeptical of being in a philosophy class but Professor Delay was kind and helped me wrap my head around foreign and abstract concepts. Hands down one of the best teachers I have had at Wake Forest and is no doubt an expert in his field of study.	No.
16	I learned so much from this course. The professor greatly stimulated my interest in the material and in the class in general.	N/A
17	Discussion based	
18	I loved Prof. Delay he was very inspiring and his lectures drove me to wake up every morning and go to his class.	
19		
20	I highly enjoyed the content and felt that it challenged me beyond my comfort zone.	More assignments to buffer exam grades.
21	I am a science major so I was not wild about this course but the material was interesting as it was something I had never learned before. It was sometimes difficult to want to engage because no one in the class was very enthusiastic.
